PREPARING YOUR WORK FOR AN EXHIBITION

- Folio work should be in a mount and protected with a sealed clear cellophane. Don't forget to label your work with your name, title of work, and price.
- To be able to hang your work well please place D-Rings on your picture no more than 1/3 down from the top of the frame and thread a cord through the D-Rings.
- Please ensure the hanging thread is 1 inch below to the top of the frame.
- Use only D-Rings, do not use eyelets as these can damage other artworks if lent against them
- Use framer's tape to seal the gap between the artwork and the frame. This keeps out dirt and insects.
- Put a label on the back with your name, the title of the work, medium and price. Also put the same information on another label on the end of a piece of string. How long is a piece of string? Long enough so that the label can dangle over the front of the picture. This helps the cataloguers prepare for the exhibition without having to disturb the hung picture. After cataloguing they just flip the label back behind the picture so make sure your string is not too long. See diagram below.

A PERFECT BACKSIDE!
